## Application for temporary frequency licence for microphones and IEMs

Frequency use for wireless sound as specified in the regulation for licence free use ([fribruksforskriften](#)) does not require individual permission from Nkom. Licence free use in the frequency band 494–694 MHz and 733–758 MHz is shown through the online service <https://finnsenderen.no/#/ledige?type=mikrofon>. If the frequencies given in the licence free use regulation do not meet your needs, you can apply for an individual licence by sending the completed form below to [firmapost@nkom.no](mailto:firmapost@nkom.no).

EVENT		
Event name	Event date (from – to)	Event area (city / sports arena etc.)
INFORMATION ABOUT THE APPLICANT		
Organization/Company	Address	Country
Name of person representing the applicant	Phone number (with country code)	E-mail
CONTACT PERSON DURING THE EVENT		
Name	Mobile phone number (with country code)	E-mail

INFORMATION ABOUT RADIO EQUIPMENT AND FREQUENCY USE								
	Equipment manufacturer	Model	Tuning range of the equipment [MHz]	RF-channel bandwidth [kHz]	Number of channels needed	Minimum channel separation [kHz]	Radiated power [mW]	Preferred frequencies [MHz]
